

**Table 8.** Energy inputs to produce biofuel and co-products (MJ/L) per unit of biofuel energy output (MJ/L), as presented in Fig. 1. Input energy allocation, co-product energy credits and energy output numbers are from Table 5.

	Corn grain ethanol		Soybean biodiesel	
	Input	Output	Input	Output
Biofuel	0.797	1	0.273	1
Co-products	0.162	0.203	0.589	0.666
Total	0.959	1.203	0.861	1.666
